Two-Day Backflow Prevention Device Inspector/Tester Recertification Review Training

Day One — 8:00 AM - 4:30 PM
Day Two — 8:00 AM - 12:00 PM

January 2020 - June 2020 • Multiple Locations
0.6 CEUs - Equivalent to 6.0 Training Contact Hours (TCHs)

TARGET AUDIENCE
This course is for those looking to become recertified as a NEWWA Backflow Prevention Device Inspector/Tester as well as those who want to renew an expired certification after the 6-month grace period by obtaining 0.6 CEUs and passing the performance exam. Individuals may also take this course and prepare for the performance exam if they would like to hold a NEWWA Backflow Prevention Device Inspector/Tester certification and hold a valid certificate or license issued by an organization having equivalent standards to NEWWA’s “Rules Governing Certification for Backflow Prevention and Cross Connection Control.”

COURSE DESCRIPTION
This course blends refresher information with hands-on testing and covers key areas of cross connection and backflow prevention control. It also incorporates a thorough hands-on review of testing procedures on various devices from different manufacturers. Students may opt to take just this course, just the practical exam, or both the course and exam (although the course is recommended for anyone wishing to take the practical exam).

Individuals who wish to take the practical exam may be required to stay longer than the 4:30 PM class end time, please make the necessary arrangements. It should also be noted that although NEWWA certification is universally accepted in all six New England states, Massachusetts, Connecticut and New York require additional, separate applications. **Note:** NEWWA’s Backflow Prevention Device Inspector/Tester certification is not accepted by Aqua America in Pennsylvania.

For full certification and renewal requirements, please visit the backflow prevention and cross connection control section of newwa.org.

TRAINING OBJECTIVES
The objective of this training is to provide the individual tester with an opportunity to practice their backflow prevention device test skills and to validate the testing procedure. The tester will gain confidence in testing backflow prevention device and feel confident as a tester. The individual will be exposed to how the devices work and the responsibilities associated with testing backflow prevention devices.

- Review of the operations of reduced pressure principle, double check valve, pressure vacuum breaker, and spill resistant vacuum breaker assemblies.
- Review of the testing procedures for reduced pressure principle, double check valve, pressure vacuum breaker, and spill resistant vacuum breakers.
- Troubleshooting failed devices.

RESOURCES
Recommended Practice for Backflow Prevention and Cross Connection Control M14 — This manual contains all the information you need to eliminate the threat of backflow and cross-connection in your distribution system. The manual describes currently accepted practice for initiating and managing an effective cross-connection control program and is designed as a professional guidance manual for those involved in detection and elimination of unprotected cross-connections, to establish uniform procedures and practices. Coverage includes backflow device selection and the latest techniques for inspection and maintenance.

Backflow Prevention and Cross-Connection Control DVD — This DVD is specially developed to reinforce and demonstrate the information in AWWA Manual M14.

These resources can be purchased separately. See these options on the registration form.

REGISTRATION FORM

CANCELLATION / REFUND POLICY

If you cannot attend you must contact NEWWA in writing two business days prior to the start of this course to request a refund or credit minus a $30 administrative fee. If you contact NEWWA within one business day you will be charged 100% of the original course registration fee. This charge is non-refundable and non-transferable. Written refund/credit request made for special circumstances will be considered if received within two weeks from the start date of this program. Credits issues are valid for six months from the date of this program. If you register within 2 days of the course add a $20 late fee.

NEWWA reserves the right to cancel or change the location of a course due. In the event of a cancellation or relocation, you will be notified by phone and have the option of obtaining a full refund, or applying payment to the next available course.

You will receive an enrollment confirmation approximately 2 weeks prior to the date of training along with detailed directions, which are also available at newwa.org.

Learning Outcomes, How Learning Outcomes Will be Assessed, Assessment Feedback, Prerequisites, Technology Requirements: This information can be viewed by visiting newwa.org. Please contact Jeanne Gilpin, NEWWA Registrar, if you require additional information or assistance at (508) 893-7979 ext. 223 or jgilpin@newwa.org.

Please keep a copy of this registration form for your records.

Check here if you have a disability and require accommodations to fully participate. You will be contacted by NEWWA.

*NOTE: An email address is required to receive confirmation of your registration. Any questions, call NEWWA at (508) 893-7979.
