Introduction

MassDEP Permit Applications, as well as Instructions & Support Materials, are available for download from the MassDEP Web site at mass.gov/dep in two file formats: Microsoft Word™ and Adobe Acrobat PDF™. Either format allows documents to be printed.

Instructions & Support Materials files in Microsoft Word™ format contain a series of documents that provide guidance on how to prepare a permit application. Although we recommend that you print out the entire package, you may choose to print specific documents by selecting the appropriate page numbers for printing.

Permit Applications in Microsoft Word™ format must be downloaded separately. Users with Microsoft Word™ 97 or later may complete these forms electronically.

Permitting packages in Adobe Acrobat PDF™ format combine Permit Applications and Instructions & Support Materials in a single document. Adobe Acrobat PDF™ files may only be viewed and printed without alteration. Permit Applications in this format may not be completed electronically.
1. **What is the purpose of this certification?**

   This certification protects the health and welfare of the public by insuring that facilities are surveyed for cross connection and backflow prevention devices are inspected by properly trained and knowledgeable professionals.

   These permits consist of an approval to allow the applicants to perform test on backflow prevention devices or conduct cross connection survey on drinking water lines. Legislative authority for this permit is stated in M.G.L. Chapter 111 '160A. Regulatory authority for this permit is stated in 310 CMR 22.22 (13), Drinking Water Regulations.

2. **Who can apply for this certification?**

   Any individual who passes a MassDEP approved written and practical examination for inspecting and testing backflow prevention devices or a MassDEP approved written examination for conducting cross connection surveys is eligible to apply for a certification.

3. **What are the requirements for certification or renewal?**

   **3.1. CERTIFICATION**

   - **Backflow Prevention Device Testers:** Applicants must show proof that they have passed the written and practical examination approved by the Department.
   - **Cross Connection Surveyor:** Applicants must show proof that they have passed the cross connection surveyor examination approved by the Department.

   **3.2. CERTIFICATION RENEWAL**

   - **Backflow Prevention Device Testers:** Applicants must have completed at least 24 inspections/tests of backflow prevention devices and received at least three (3) training contact hours (TCH) in the past three years. Proof of inspections and TCH must accompany the application.
     - If the applicant has completed twelve (12), but less than twenty four (24) inspections in the past three (3) years, the applicant need only take the practical examination.
     - If the applicant has completed less than twelve (12) inspections in the past three (3) years, the applicant must pass both the written and practical examination or attend a re-certification class.
   - **Cross Connection Surveyor:** Applicants must show that, in the last three (3) years, they have received at least three (3) TCHs and conducted at least three (3) cross connection surveys in any of the following facilities: industrial, commercial or institutional.
     - If applying for a Combination Certification (Backflow Tester and Cross Connection Surveyor) applicants must satisfied all the requirements for renewal as a Backflow Tester and Cross Connection Surveyor, except for the TCHs requirements. Only proof of three (3) TCHs is required.
     - These additional requirements are intended to serve as a guide to the applicant. It does not necessarily include all additional requirements.

4. **What is the application fee for certification or certification renewal?**

   An application fee of $55 must be submitted at the time of the application. **THERE IS NO FEE EXEMPTION FOR THIS CERTIFICATION / CERTIFICATION RENEWAL (BRP WS10).**
