

For President-Elect: Jessica C. Lynch, P.E.

Jessica Lynch has served as General Manager and Chief Engineer at Portsmouth Water and Fire District in Portsmouth, RI, for 9 years. She is responsible for ensuring compliance with rules and regulations, managing the District's staff and day-to-day operations, advising the administrative board, performing and reviewing engineering analysis and design, developing annual budgets, and reviewing and approving any water system construction and repairs. Prior to this role, she spent 13 years as a Project Manager and Project Engineer at CDM Smith.

Jessica received a Bachelor of Science degree in civil engineering from the University of New Hampshire and a Master of Science in civil engineering from Worcester Polytechnic Institute. Jessica is a registered professional engineer and holds grade D3 and T2 operator licenses in Rhode Island. She has been a NEWWA member since 2012 and has served on the Board for the past seven years. She serves as President for the Rhode Island Water Works Association Executive Committee and is a Board Member of the Board of Certification of Operators of Water Supply Treatment and Distribution Facilities.

"I am honored and excited to be nominated for President-Elect of NEWWA. Serving on the Board of Directors for the past seven years has been an invaluable experience, and my involvement with NEWWA has greatly benefited my career through outstanding training opportunities, conferences, and lasting professional connections. I look forward to the opportunity to continue giving back to this incredible organization.

I am passionate about the water industry and eager to contribute my ideas, experience, and enthusiasm while collaborating with the exceptional Board members and NEWWA staff to help drive the association's continued growth. As President-Elect, I would prioritize strengthening member engagement, expanding student engagement and workforce development initiatives, and increasing public awareness of the value of water. My goal is to help ensure that NEWWA remains a leading resource for water professionals as our industry continues to evolve."

- Jessica Lynch, candidate for President-Elect

For Vice President: Marc Morin, P.E.

Marc is a Managing Principal and National Lead for Municipal Tanks and Storage Facilities at Brown and Caldwell. He brings more than 35 years of experience managing, designing, and constructing water treatment, storage, and distribution projects, primarily in New England, with additional work in the Southern and Western United States and the Middle East. He graduated from the University of New Hampshire with both bachelor's and master's degrees in civil engineering and is a licensed professional engineer in New Hampshire, Massachusetts, Connecticut, and Florida.

(continued on next page)

As a member of NEWWA for over 35 years, Marc has been serving on the NEWWA Board as its New Hampshire Director for the past 3 years. He has served on several committees and presented at both the NEWWA Annual and Spring conferences as well as moderated many sessions. Recently, he has been most active with the Membership, Disinfection, and Water Treatment Plant Residuals Committees. Marc has also served, for over 21 years, on the New Hampshire Board of licensure for Professional Engineers, having been appointed by four different NH Governors, where he is currently the Chairman. Additionally, he is a current member of the AWWA D110 Tank Standards and Water Treatment Facilities Design & Construction Committees.

Marc lives in Bow, New Hampshire, with his wife Pam. He enjoys the Patriots, Bruins and traveling to Siesta Key, Florida.

"I am honored to be nominated for Vice President of NEWWA. I have dedicated my career to the drinking water industry because safe, reliable drinking water is essential. Over the years, I have been fortunate to gain broad experience and to work with and learn from many published and acknowledged leaders in our field. One of my passions is to share this experience, with all levels of our industry, by coaching and mentoring those new to our field. I now welcome the opportunity to serve as Vice President, to apply those experiences, to promote our industry, to continue to mentor the next generation and to positively impact NEWWA."

- Marc Morin, candidate for Vice President

.....

For State Director – Maine: Roger Paradis

Roger Paradis serves as General Manager of the Kennebunk, Kennebunkport & Wells Water District, where he oversees the District's operations and strategic direction, ensuring reliable service, sound financial management, and continued investment in critical infrastructure. With more than 20 years of experience in the water industry, Roger has built a career focused on operational excellence, workforce development, infrastructure resiliency, and protecting public health.

During his 20-year career with Portland Water District, Roger gained experience across nearly every aspect of utility operations, from engineering and watershed protection to facilities management and distribution system leadership. Throughout his career, he has led major infrastructure initiatives, developed innovative maintenance and asset management programs, and implemented business strategies that improved system reliability and operational efficiency.

Roger earned a Bachelor of Science degree in environmental science and policy from the University of Southern Maine and holds Maine Class IV Distribution and Class II Treatment Operator licenses. He currently serves as Vice President of the Southern Maine Regional Water Council and has represented Maine as a Director on the New England Water Works Association Board since 2023.

(continued on next page)

A former United States Marine Corps Aviation Engineer, Roger remains passionate about leadership, mentorship, and workforce development. He has worked to support veterans transitioning into careers in the water sector and was previously recognized with the Patriotic Employer Award for his commitment to supporting service members during active-duty deployments. Roger has been an active member of NEWWA since 2006.

“It has been a privilege to serve as Maine’s representative on the NEWWA Board of Directors, and I am honored to seek re-election. During my first term, I have gained a deeper appreciation for the important role NEWWA plays in advancing our industry through education, collaboration, and advocacy.

As General Manager of the Kennebunk, Kennebunkport & Wells Water District and a water professional with more than two decades of experience, I understand the challenges utilities of all sizes face, from workforce development and infrastructure investment to regulatory compliance and emerging water quality concerns. I believe strong professional networks and knowledge sharing are critical to addressing these challenges.

If re-elected, I will continue working to ensure Maine’s water professionals have a strong voice within NEWWA while helping foster opportunities for training, leadership development, and collaboration throughout New England. I remain committed to supporting the Association’s mission and giving back to an organization that has contributed so much to my own professional growth since becoming a member in 2006.”

- Roger Paradis, candidate for Maine State Director

For State Director – New Hampshire: Patricia Kelliher, P.E.

Patricia Kelliher is an Associate and Environmental Engineer with CDM Smith in Manchester, New Hampshire, with more than 16 years of experience in drinking water planning, modeling, treatment, distribution, asset management, and regulatory compliance. As a Client Service Leader, she connects utilities, regulators, and industry partners to address complex challenges and advance practical, forward-looking solutions that strengthen water systems across New Hampshire and New England. She serves on the New Hampshire Water Works Association (NHWWA) Board of Directors and Legislative Committee, where she helps address policy and regulatory issues affecting New Hampshire utilities. Her long-standing involvement with NHWWA includes founding and serving as the first Chair of the Young Professionals Committee, created to strengthen engagement and support emerging leaders across the region. In 2023, she was named NHWWA Young Professional of the Year.

Within the New England Water Works Association (NEWWA), Patricia serves as Vice Chair of the Corrosion Committee and contributes to technical programming and events through the Program Committee. She has also led new initiatives, including NEWWA’s first technical symposium on resilient and sustainable water systems, and will facilitate the upcoming NEWWA Planning Session.

She is an active member of the Distribution & Storage Committee and a mentor in NEWWA's mentoring program.

Patricia is also involved with regional organizations including the Connecticut Section of AWWA (CTAWWA) and the Maine Water Utilities Association (MWUA), reflecting her commitment to collaboration across New England. Through her utility work and leadership roles in NHWWA and NEWWA, she brings a strong ability to connect perspectives and move shared priorities forward across New Hampshire and the broader New England water community.

Patricia holds a Bachelor of Science in civil and environmental engineering from the University of Massachusetts Amherst and is a licensed professional engineer. She works closely with public water systems throughout the region, building trusted relationships while advancing resilient, sustainable approaches to infrastructure planning and investment.

"NEWWA is strongest when its members are connected, heard, and empowered to act. Throughout my career, I have brought utilities, regulators, technical experts, and industry partners together to turn complex challenges into practical progress. As the NEWWA New Hampshire Director, I will be a strong advocate for the water community by helping elevate member voices, strengthen collaboration across the region, and move shared priorities into action."

- Patricia Kelliher, candidate for New Hampshire State Director

For State Director – New Hampshire: Bryan Sadowski, P.E.

Bryan Sadowski is a Technical Specialist in Water Treatment in AECOM's Water Business Line and is based out of the Manchester, New Hampshire office. He received his Bachelor and Master of Science in environmental engineering from Worcester Polytechnic Institute and is a registered Professional Engineer in five states including New Hampshire. His experience in municipal water began during his undergraduate degree with an internship at a local water department but has now been professionally practicing for the past ten years. At AECOM, he works with a wide range of municipal clients in New Hampshire and throughout the country to provide various water treatment related services including design and construction of new treatment facilities and optimization of existing facilities. He has

also obtained both T3 OIT and D1A operator licenses in New Hampshire. Bryan currently resides in Rollinsford, New Hampshire, and has recently welcomed the arrival of twin girls.

A NEWWA member since 2019, Bryan has served as Vice Chair and Chair of the Water For People Committee where he has organized softball tournaments, raffles, and silent auctions to raise more than \$50,000 for Water For People under his leadership. He has served as Secretary, Treasurer, Vice Chair, and Chair of the Young Professionals Committee, where he has coordinated numerous events such as Treat and Meet Tours and other networking meetups. As Chair, Bryan has also spearheaded a new YP centered program that will be part of the Annual Conference this year and will hopefully be continued for years to come.

(continued on next page)

He has participated in various other committees such as the Filtration and Residuals Management Committees as well as provided many papers to NEWWA conferences and the NEWWA Journal.

"It is an absolute honor to be nominated for New Hampshire State Director for NEWWA. This organization has been such a big part of my career up until this point, and my desire is to start taking on greater leadership roles to give back all it's given to me. Our industry is going through a transition and it's the responsibility of us younger professionals to learn from all that's been accomplished by our predecessors and build upon those achievements to meet the coming challenges. As part of the NEWWA Executive Board, I will bring enthusiasm for our industry and a new perspective to make this organization as great as I know it can be. I hope to show other young professionals anyone can and should rise to take on leadership roles in this organization."

- Bryan Sadowski, candidate for New Hampshire State Director

For State Director – Vermont: Joseph Duncan, P.E.

Joe is currently the General Manager at the Champlain Water District, an award-winning regional water supplier having the distinction of receiving the first in the Nation "Excellence in Water Treatment Award" from the Partnership for Safe Water. He is responsible for managing and conducting all business of the District. Prior to joining CWD, Joe worked for 18 years as a consulting engineer on municipal water resource projects. He has a Bachelor of Science degree in Civil Engineering from UVM and a Master of Science degree in Environmental Engineering from WPI.

Joe has been involved in NEWWA since his days as a grad student at WPI when he assisted with teaching AutoCAD classes for the association. He's currently involved with numerous committees at NEWWA, including the Distribution & Storage Committee and the all-important Networking Committee. Joe takes great pride in working with the incredible group of dedicated water professionals to provide high quality drinking water to people and businesses in our communities.

"I am a firm believer in 'Best Water Best Life' and I am glad to serve our profession in any capacity to achieve that."

- Joe Duncan, candidate for Vermont State Director

For Director-at-Large: Jeanine D. Dudle, Ph.D., P.E.

Jeanine Dudle is an Associate Professor and Associate Department Head of Civil, Environmental, and Architectural Engineering at WPI in Worcester, MA. Jeanine has 25 years of experience as a professor. She teaches classes in laboratory methods, water treatment, water chemistry, and water quality modeling. She has been recognized for outstanding teaching by WPI, the Association of Environmental Engineering and Science Professors, and the Carnegie Foundation. Her research has focused on physical and chemical water treatment and water quality management.

2026-2027

Nominees for the NEWWA Board of Directors

She has published 25 peer-reviewed articles and book chapters and has over 90 presentations and invited seminars. Jeanine also has two years of consulting experience with Northeast Water Solutions Inc. in Exeter, RI, and Water Quality and Treatment Solutions in Los Angeles, CA, where she focused on treatment system upsets; disinfection by-product control; corrosion control; water source development; and treatment design.

Jeanine received her B.S. degree in civil and environmental engineering from Cornell University, and her M.S. and Ph.D. in environmental engineering from the University of Massachusetts Amherst. She has been a NEWWA member since 1995; and previously served as Chair of the Student Activities Committee (2007-2010); Chair of the Scholarship Committee (2013-2015); and Director-at-Large (2024-2026).

"Water has been my passion for my entire education and career. I am grateful for the opportunity to serve on the board these past two years – to provide the perspective of an academic, and to serve as a bridge for students as they transition to young engineers in the water works profession. I am excited to work with the dedicated staff, volunteers, and leaders in NEWWA, Inc. to help continue the association's success."

- Jeanine Dudle, candidate for Director-at-Large
